

RESUME

Jan Prchal

Frontend Developer & Designer

Hradec Králové, Czechia · +420 775 160 190 · prchal.honzak@gmail.com

janprchal.cz · github.com/janprchal · linkedin.com/in/prchaljan

Ten-plus years building interfaces with Vue.js and Angular, designing them first. I take products from Figma mockups through to production TypeScript, HTML, and CSS.

EXPERIENCE

Where I've worked

Frontend Developer

07/2024 – Present

BuildingMinds · Berlin, remote

Developed frontend features using Angular (v18+) and TypeScript, including standalone components and signals. Designed, built, and maintain BuildingMinds' shared Angular component library — 50+ components used by 3 apps across 5 teams. Implemented UI/UX designs and contributed to the design process.

Frontend Developer & Designer

11/2016 – 06/2024

Enrian Partners · Prague

Designed and built applications and websites for 7 clients across banking, insurance, and telco, including Komerční banka, UniCredit, Tatra banka, Zurich, Nedbank, T-Mobile, and Molo Finance, often shipping several applications per client. Created the company's design system (SCSS, ITCSS, BEM) with a utility layer generated from design tokens, deployed on 3 internal products. Worked daily with client teams and validated designs directly with product owners and users. Built UIs in Vue and TypeScript, wrote templates in Latte, Smarty, and Pug, and designed everything in Figma.

Frontend Developer

03/2016 – 11/2016

Rohlik.cz · Prague

E-commerce redesign for a leading Czech online grocer, using Nette, Latte, SCSS/BEM, and jQuery.

Web Developer

07/2015 – 09/2015

FG Forrest · Prague

Built websites for ČEZ, a major energy utility, using HTML, Less, jQuery, and Freemarker.

Frontend Developer

11/2014 – 06/2015

PragueBest · Prague

Built websites for clients including Teta Drogerie, Neckermann, Globus, and Honda.

Web Coder

04/2014 – 10/2014

Tarsago Media Group · Prague

Built sales websites and microsites using HTML, CSS (SCSS), and JavaScript (jQuery).

Web Coder / Designer

06/2012 – 03/2014

EMTC Czech · Prague

Built HTML templates for Nette, responsive websites, and HTML e-mails, styled with CSS (SCSS) and enhanced with JavaScript (jQuery), with designs in Photoshop.

PROJECTS

Selected work

Design system

2016 – 2024 · [tuts.janprchal.cz](#) · [GitHub](#)

I built the whole system myself: tokens, components, the utility layer, and the documentation site.

Konference

2019 · [Figma](#) · [conference.janprchal.cz](#)

I designed and built this project end to end, from Figma to the finished site.

EnviSoG

2024 – Present · [Figma](#)

A carbon-footprint calculator I'm building with friends at Envisog s.r.o. I designed the system myself.

Homeandstem

2026 · [Figma](#) · [GitHub](#) · [homeandstem.com](#)

I designed and coded this with Claude Code, directing the whole build myself.

Archive

[Figma](#)

Earlier design work, collected in one place.

Design manual

[design.janprchal.cz](#)

Typography and an SVG icon system.

BACKGROUND

Education & languages

EDUCATION

Secondary technical school — electrical engineering, specialization in computer systems · 2002–2006

LANGUAGES

Czech — native

English — intermediate, used daily at work
